

Sew Clean® is the only safe and effective environmental solution to eliminate problematic clogs and nasty odors from black water systems

Sew Clean® builds upon the proven **Barnacle Buster®** formula and takes it one step further. Special attention has been given to ensure that foam and bacteria are significantly reduced while flushing. Like all of TRAC's products, **Sew Clean®** is non toxic, biodegradable and safe to use with all types of materials commonly found in black water systems.

Why use Sew Clean?

Sew Clean® is the most effective alternative when it comes to removing uric scale from deep inside black water systems. Formulated specifically to target uric scale and clean sewage systems from toilet to tank, **Sew Clean®** will dissolve clogs which cause plumbing to overflow and create nasty odors.

Sew Clean® has been designed to provide impeccable results without having to remove any piping or create a mess. **Sew Clean®** can be used by one of two methods:

- **Immersion:** Isolate the tanks, fill the entire system, and let stand for 24 hours.
- **Circulation:** Isolate the tanks, connect circulation equipment, and recirculate.

Sew Clean® is sold in concentrated form. One gallon of Sew Clean® will make 5 to 8 gallons of ready-to-use solution. (depending on dilution rates)

Availability

1 gallon , 5 gallon pail, 55 gallon drum
 or a 250 gallon tote tank

Safety

- When used as directed, **Sew Clean®** is non-corrosive to most metals commonly found in black water systems.
- **Sew Clean®** is biodegradable & can be disposed through regular sewer system.
- **Sew Clean®** is safe for your personnel.
- **Sew Clean®** passed the California Fish Toxicity Assay Test, Department of Hazardous Substances (Title 22) and complies with NSF International standard 60.
- Based on current EPA guidelines, **Sew Clean®** is classified as non-flammable and meets all requirements regarding hazardous and dangerous materials.
